All information provided by MERIC on EMMMap (Energy Marine Map) is made available to provide immediate access for the convenience of interested persons. Whilst MERIC believes the information to be reliable, human or mechanical error remains a possibility. Therefore, MERIC does not guarantee the accuracy, completeness, timeliness or correct sequencing of the information. Neither MERIC nor any of the sources of the information shall be responsible for any errors or omissions, or for the use of, or results obtained from, the use of this information.

EMMMap by MERIC is a marine energy geomapping product which aims to unify in a single platform information from different sources, considered to be relevant for marine renewable energy development in Chile. The quality, coverage and update frequency of data from these sources is highly variable. EMMMap is not automatically linked to data from these sources, and therefore updating delays should be considered.

EMMMap's data sets are not to be used for navigation or for any purpose relating to safety inland or at sea.

The usage of EMMMap's platform requires strictly the recognition of the source.

# Privacy Policy

## Website usage

MERIC collects standard internet log information and anonymous details of visitor behavior patterns. The former enables us to troubleshoot problems and the latter to improve the speed of our service and enhance your experience. Through the EMMap web site, MERIC does not capture or store any personal information that can be used to identify an individual.

## Cookies for improving service

We use [Google Analytics](#) to monitor visitor behavior patterns. Google Analytics uses first-party cookies to track visitor interactions.
